***Examiner's Statement of Reasons for Allowance***

1. The following is an examiner's statement of reasons for allowance: The amended limitations regarding the inclusion of left and right stepping force means for individual members of the audience within the context of the viewing environment being claimed is considered novel in view of the prior art. The cited art which teach stepping force detection, especially in view of the primary reference Hennes, teaches an 'open air' area being monitored, where viewers move about freely, and whose movements are then monitored to estimate audience states. The claimed invention however, takes place in the more traditional theater environment, where each individual audience member is associated with a seat, and such free movement is not permitted, thus it is clear from the claims now that the stepping for detectors are specific to each seat, and thus to each audience member.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:
